

How can entities send commercial communication in legit ways.

Stakeholders of the ecosystem

The stakeholders in the ecosystem includes:

- Telecom Service Providers
- Sender or Principal Entities (Also include Govt. Entities)
- Telemarketers/Aggregator
- Customer or Recipient of voice calls or SMS

Regulatory requirements to be fulfilled by Principal Entities

All the Principal Entities (Sender or Businesses, Private as well Government bodies) who are using the telecom resources to send bulk messages to their customer, have to fulfill the regulatory requirements under TCCCPR, 2018.

As per the provisions of the regulation and Code(s) of Practices published by the Access Providers, following activities are required to be completed by any sender (OTP, Transactional messages, Service messages or commercial messages) for sending bulk communication:

- (a) Registration as Principal Entity (PE)
- (b) Assignment of header
- (c) Registration of Content Template
- (d) Transmission of PE ID, header, Content ID while offering for delivery of messages to TSPs
- (e) Registration of consent template (if any)
- (f) Acquisition of consumer consent (if any)

Guidance for sending Commercial Communication

If you are interested in sending commercial communication (CC), then you fulfill the regulatory requirements before sending CC:

1) Become a registered sender

Register yourself as Principal Entity business/legal/govt. Entities who want to send Commercial Communication to send commercial communications to your customers.

Procedure for Principal entity Registration - Learn how to register as sender/Principal entity on TSPs' website

2) Register Header

Every commercial communication is carried through registered headers

Alphanumeric string of Max. 11 characters

Ex: "VD-KOTAKB" "JD-IPAYTM"only.

Procedure for Header Registration - Learn more about the header registration process.

3) Register Content Template

For sending any communication through registered headers, Principal entities are required to register their content template structure of the message content which has fixed and variable part which may have both fixed and variable parts as per the code of practice.

Register your content template through TSPs website

Procedure for Content Template Registration - Learn more about the Content template registration process.

4) Register your customer's consents

Before sending commercial communication to your customers, you must acquire consent of customers through a registered consent template structure of template for acquiring consent
Procedure for Consent Registration - Learn more about the Consent template registration process.

All the above steps are necessary to become a registered sender. Failing to follow any steps will not allow you to send CC.

Code of Practice - Entities

Code of practice for Entity (COP-Entity) to be developed by TSPs with reference to Schedule -I of TCCCPR, 2018.

Every TSP is required to comply with the submitted COPs, provided that any provision in Code(s) of Practice shall not have effect to the extent of being inconsistent with the regulations.
